TAPES and UNDERGROUND MARKING

DENSO Waterproof Tape

Denso tape offers a weatherproof seal when wrapped around joints to stop the ingress of moisture, preventing corrosion.

Material: Synthetic - Impregnated and coated with neutral petroleum compound

Colour: Black

Code	Width	Length (m)
DENSO-50mm	50.0	10

Underground Warning Tape

Underground marking tape manufactured from low density polyethylene Lead free pigments with virgin grade film Soil tolerance from pH 2.5 to pH 11.0 inclusive 100 micron grade is manufactured in accordance with ENATS 12-23

Material: 100% virgin plastic

Colour: Yellow

Code	Width	Length (m)	Colour
WT-01	150.0	365	Yellow

Tiletape Underground Warning

Tiletape combines a highly visible warning plus a measure of protection in one system. Tiletape is a thin, coloured warning tape which is laminated to a thicker polyethylene sheet. Supplied on the roll, it is easy to handle and install but provides a measure of protection from tools and machinery in addition to a clear visual warning to excavators. Ideal for lower voltage electric cables and other utilities.

Material: Recycled Plastic

Code	Width	Length (m)	Thickness
TT150	150.0	40	2.5

Cable Protection Covers

Heavy duty yet lightweight plastic slabs made from recycled polyethylene. The top surface of the covers is laminated with a yellow plastic tape which has been pre-printed with an identification warning text. The covers have a hole at each end to allow interlocking by simply overlapping and securing using the special plastic joining pegs. The covers are free from PVC and made from homogeneous recycled plastic which is not susceptible to freeze-thaw cracking that may occur with compressed-plastic-chip covers.

Material: Recycled Polyethylene Plastic

Code	Width	Length (m)	Thickness
CPT150	150.0	1	6.0
