

IP65 Enclosures

Watertight Smooth Wall Enclosure

Grey watertight ABS plastic electronics enclosures with clear top to take electronic circuit boards in fourteen different sizes. There are internal PCB mounting pillars on the base of the enclosure. The enclosure lids are fixed by four universal cross cut head machine screws (supplied). The material ABS used in manufacture is Halogen free and glow wire tested to IEC 60695-2-11.

Transparent Lid ABS Enclosure

- Manufactured from strong/lightweight ABS material
- Captive steel or polymer screws with universal cross/cut head
- Double insulation
- Pressure tested in accordance with CEI 23-48: 70°C
- Shock resistance: IK08 IP55, IP65

Protection: IP55 / IP65

Temperature Range: -5°C to 60°C

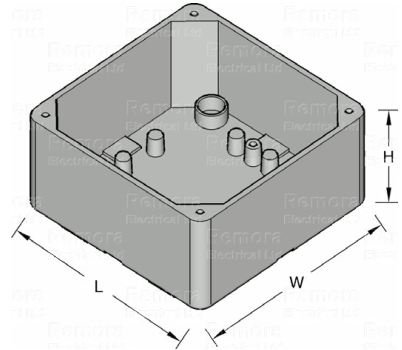

Enclosure Material: Halogen Free ABS Techno-polymer

Gasket Material: EPDM

Glow Wire Test: 650°C IEC 60695-2-11PDM

Ageing Test Accordance: CEI 23-48:7 days at 70°C

Colour: Grey RAL7035 / Transparent Lid
