

February 2021

Conflict Minerals Declaration

As a global supplier of electrical components and cable accessories, Remora Electrical Ltd is aware of our obligations with regards to laws and regulations regarding Conflict Minerals, specifically the Dodd-Frank Wall Street Reform and Consumer Protection Act, Section 1502.

Remora Electrical Ltd does not directly source or process conflict minerals such as Tin, Tantalum, Tungsten, or Gold collectively referred to as 3TG by the SEC. 3TG may be contained in our products in the form of solder, or as a component in metal alloys.

As part of our reasonable due diligence Remora Electrical Ltd has contacted component suppliers within our supply chain to verify their continued compliance with the regulations. Based on the information received thus far we declare that our products contain 3TG sourced from either conflict free areas or certified conflict-free mines.

We will continue with the ongoing review of suppliers to ensure Remora and its suppliers meet regulations with respect to Conflict Minerals.

Yours Sincerely

Tom De Main
