

WHAT'S NEW IN... BI-METAL CUTTING

## Morse Cutting

Master Cobalt Hole Saw are a premium range line of professional quality Hole Saws. Uniquely designed to clear chip during cutting so they require less cutting pressure and last longer.

### Features and Benefits

- Positive rake teeth provides better chip clearance.
- 38mm cutting depth will cut through a 2 x 4.
- Requires a separate arbor.
- Variable pitch teeth reduces friction and heat.
- Expanded gullets allows for faster cutting and increased blade life.
- Better tooth match for better chip clearance and smoother cutting.
- Reinforced tooth flank makes teeth stronger for longer life and resistance to tooth stripping.

### Morse Bi-Metal Hack Saw Blades

- Vacuum heat treating creates harder edge for faster, easier cutting
- High speed steel cutting edge with 8% cobalt for longer blade life
- Increased heat and wear resistance for longer life
- Flexible to prevent shattering during use

**Material:** 8% cobalt alloy
