

INDOOR/OUTDOOR - FLEXIBLE WIRE BRAID

## RXT ArmaKit

### Industrial Grade Low Smoke

#### Flexible Wire Braid Armour

#### Low Smoke and Acid Fume Emission

The ArmaKit® RXT Gland is a two-part gland designed for use with all types of screened flexible wire braid, or wire braid armour cables. An integral polychloroprene environmental seal provides full protection against high power jets of liquid and is 100% dust tight, an internal brass washer ensures the seal will not deform as the glands are torqued down.

ArmaKit® RXT Glands are suitable for use in indoor or outdoor environments where moisture or dust exposure is anticipated.
