

## BI-METAL CUTTING

# Morse Cutting

Master Cobalt Hole Saw are a premium range line of professional quality Hole Saws. Uniquely designed to clear chip during cutting so they require less cutting pressure and last longer.

### Features and Benefits

- Positive rake teeth provides better chip clearance.
- 38mm cutting depth will cut through a 2 x 4.
- Requires a separate arbor.
- Variable pitch teeth reduces friction and heat.
- Expanded gullets allows for faster cutting and increased blade life.
- Better tooth match for better chip clearance and smoother cutting.
- Reinforced tooth flank makes teeth stronger for longer life and resistance to tooth stripping.

### Extension Bar

- Great for reaching through studs or hard to reach areas
- Length:** 305mm  
**Material:** Steel  
**Size:** Extension 12" (305mm) Shank Size 7/16" (11mm)

| Code   | Size                    | Description   |
|--------|-------------------------|---|
| ME121  | 305 long                | Arbor extension for M44 & M45P arbors                                 |
| M44-AN | 5/8-18 to 1/2-20 thread | Arbor adaptor nut to convert M24 M34 & M44 to fit 32-210mm holes saws |

### Electricians Tube Kit

Advanced Bi-Metal Hole Saw Kit. Longer life, Deeper/Faster cut, Specialised side slots, Solid cap/sturdy body. Patent pending tooth design.

**Material:** Cobalt M3 High-Speed Steel

**Applications:** Wood, plastic, machinable metals, stainless steel alloys, nail-embedded wood

| Code    | Contents | Description                |
|---------|----------|----------------------------|
| TA04PO3 | AV125    | 20mm                       |
|         | AV155    | 25mm                       |
|         | AV205    | 32mm                       |
|         | AV24     | 38mm                       |
|         | AV315    | 50mm                       |
|         | AV40     | 64mm                       |
|         | M34      | 3/8" Shank Arbor           |
|         | M44-AN   | Adaptor to convert to 5/8" |
