

Masonry Mounts

Masonry Mounts are used for fixing cables to walls without using screws or plugs. Simply drill a hole (6 or 7mm) and push fit. For use with cable ties up to 9mm wide.

Material: Nylon 66

Operating Temperature: -40°C to 85°C

P-Clips - Nylon

Manufactured from Nylon, these P-Clips offer good temperature resistance as well as offering high strength. A feature of these clips is their versatility in accepting a wide range of cable sizes through the use of a range of fixing holes.

Their light weight makes them particularly suitable for use in areas such as aircraft and aerospace, where minimising weight but retaining a strong fixing is vitally important.

Material: Nylon 66
